

Homeopathy for Animals

Coming early 2012!

Our own Linda G. Miller, director of the Western College of Homeopathic Medicine, and honoured guest Julie Anne Lee, director of the College of Animal Homeopathic Medicine, will be offering three distinct courses in animal homeopathy in early 2012: **Homeopathy for Cats and Dogs**, **Homeopathy for Horses**, and **Homeopathy for Livestock**. They include comprehensive training in the foundations of homeopathy, equivalent to the foundations taught in our Acute Care and First Aid Homeopathy course (which is a prerequisite for our four-year diploma program).

Julie Anne Lee (DCH, RSHOM)
